

DSAO Meeting—2/27/15

Called to order at 8:05

In attendance:

Loree Nosack, Tom's
Taylor, ODTI
McKenzie, ODTI
Lois, PDE
Josh, PDE
Helen, SODE
Bob, SODE
Will, ODEC
Andrew, ODEC

Agenda Items:

Andrew—

Concerned with the CCC people wanting to be involved in DMV testing. They have added it to the DEAC meeting.

Not appropriate to DEAC.

General consensus of group is support for the above statement.

Bill W. came in and offered to provide student numbers for 2014 CCs/comm/pub

Bob –

Questioned whether schools provided additional instructor training between WOU training and having them teach on their own

Proposed there be a requirement to do additional in-company training for new instructors before they teach on their own

Andrew –

Suggested the idea adding some sort of incentivized short program to get kids that don't have "time" for driver ed, so they would still get some of the skills

Group concern that it would "muddy waters" and draw students from ODOT program

General discussion of CCs and their practices.

Bill returned with numbers:

2014 ODOT student numbers

7656 total

2661 commercial schools

2863 public school programs

2132 CCs

Non-ODOT schools returning:

Michael Phelps—(Palm Tree Zebra Car)

New School opening

Ongoing training requirements—Plans are underway to have all instructors go through refresher training.

In-house training. Some members of DSAO would like to standardize in house training for new instructors.

WOU is going to pick up an instructor evaluation program. TOTs will be assigned to evaluate every instructor in the state.

Adjourned at 9:30
